

You are looking for a new challenge in the area of SAP authorization management and you have an affinity for consulting?

Due to your routine you always keep a clear head? Your strengths are enthusiasm and determination? Then please apply for the position of:

Consultant for SAP Authorization Management (m/f)

The company

BDS Systemberatung GmbH is a family business that implements integrated solutions on the basis of SAP for small and medium sized companies. Next to the classic SAP consulting we support our customers in the area of product-lifecycle-management – from product development to production processes.

Your profile

- University degree in computer science or similar qualification
- Several years of work experience in SAP authorization management

Requirements

- Very good knowledge of SAP ERP, BI, CRM and SAP trade solutions
- Good knowledge of German and English
- Ability to think analytical and conceptual
- Experience as project manager
- Good communication skills and confident demeanor
- Ability to cope with pressure and assertiveness

We are looking forward to your conclusive application including salary expectations

Our offer

- Drafting of authorization concepts in the areas of SAP, ERP and SAP BI
- Implementation of SiAM (Simplified Authorization Manager)
- SAP Compliance, Segregation of Duties and Sarbanes-Oxly consulting
- Drafting of concepts for structured authorization management
- Compiling and fostering of user authorizations within SAP ERP, BI, CRM and trade solutions
- Presentation of project results
- Support and development of customers
- Assistance in internal projects in relation to authorization management
- Independent realization of projects
- Customer trainings
- Project management

Assignment location

- National/international
